

Extract from FTC Minutes – 9th September 2013

The Committee discussed allotments - did it make sense for the Council to collect small rents, in exchange for maintenance etc.? Or should allotment holders be given the chance to run their own allotments, with these being provided by the Council at no cost? Other councils such as Winsford and CWAC had done this. The recommendation would therefore be made to Council that this approach be taken. TOR would need to be adjusted to reflect changes in due course. The first question would be whether any Community groups were willing to take this role on.

R3: That the community is asked whether there were any groups of individuals willing to take on and manage the allotments at specific sites.
